Quality for professionals

The straw protection cover P8 E RAL3020 assembled
item no.: 04000-2-268 includes:

<u>Item no.:</u>	<u>Designation:</u>	<u>Pieces:</u>
04000-2-268	Straw protection cover P8 E RAL3020 assembled	1 pc.
00600-3-988	UA Straw protection cover PS120-500 V1.X de	1 pc.
00600-3-997	UA Straw protection cover PS120-500 V1.X en	1 pc.

Tools needed to convert the straw protection cover:

WAF 10 open-ended spanner
10 mm socket wrench

The conversion must be performed as follows:

1. As shown in Fig. 1, loosen the marked screws, of which 2 are located on each side.

2. As shown in Fig. 2 with the direction of the rotation arrow, turn the blower fan cover down towards the front.

3. Take the top part of the straw protection cover in your hand and attach it to the steel frame on both sides with the previously loosened screws.

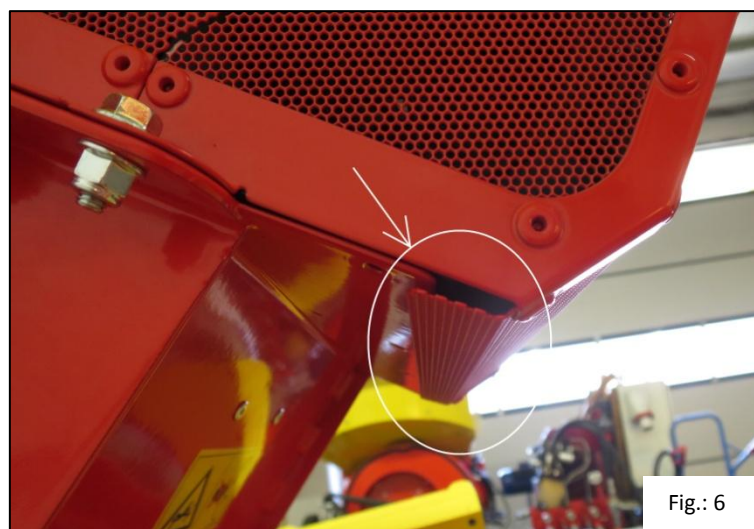

4. Now attach the bottom part of the straw protection cover by threading the 3 elongated slots, located on the top side of this part, upwards into the hooks that can be seen in Fig. 3.

5. Position the second part of the straw protection cover on the steel frame such that the drilled holes of the straw protection cover overlap with those of the steel frame. Attach this part onto the steel frame with the previously loosened screws.

6. Ensure that the bend on the bottom side of the straw protection cover, as shown in Fig. 6, is resting on the bottom edge of the steel frame.

Notes

A large rectangular area filled with a fine grid pattern, intended for taking notes. The grid consists of small squares and occupies most of the page below the header.

Notes

A large rectangular area filled with a fine grid pattern, intended for writing notes. The grid consists of small, uniform squares covering the majority of the page's content area.
